

QUALITY POLICY STATEMENT

Talbot Engineers Ltd has been a sub contract producer of precision turned parts of the highest standard, supplying a wide variety of industry sectors, for over thirty years.

Talbot are committed to the provision of a customer focused service, product quality & on time delivery. This commitment is backed by the companies continued investment in machine technology and the dedication of all staff.

In order to provide a reliable and efficient sub contract service, Talbot shall maintain an effective Quality Management System (QMS) which meets and is certified to the requirements of ISO9001:2015.

Implementation and adherence to the QMS shall be mandatory on all employees, shall provide the basis on which customer's requirements are met and the objective of continual improvement is driven.

The organizations management shall be committed to continual communication and appraisal of the QMS and Quality Policy, ensuring its effectiveness and suitability. Equally they shall determine Quality Objectives and Targets for the purpose of continued improvement and shall be responsible for their communication, appraisal and evaluation of the organizations ability to meet their objectives.

The achievement of customer satisfaction is the primary objective of Talbot Engineers Ltd and one to which the whole organisation shall be committed.

A. Frost – Managing Director.
